Process, Data & Technology
Moving from Maintenance to Mission
       • Reducing process, data, and technology burdens on clergy and staff
       • Negotiating cost-effective IT shared services for parishes and schools
       • Innovating, evaluating and integrating tools for mission and evangelization
Facilitating Secure Communications and Collaboration
       • IT policies & procedures
       • Cybersecurity guidelines
       • Establishing archdiocesan standards and best practices
       • Integrated Archdiocese/parish/school network
Strategic Analysis & Solutions
       • Dashboards and analytics to drive mission success
       • Cooperative data governance
       • Process and technology consultation and evaluation

• Missionary assessments for parishes and schools
• Research, demographics, and statistics
